

Small Enterprise Research

ISSN 1321-9506

CALL FOR PAPERS

Submissions of original research papers on small enterprise issues are invited.

The purpose of **Small Enterprise Research** is now, always has been, and will continue to be the publication of high quality articles, notes and reviews on subjects of interest in the fields of small enterprise management, entrepreneurship, and regulation, policy and education and training in these fields

As the official journal of the **Small Enterprise Association of Australia and New Zealand**, **Small Enterprise Research** is intended to be a primary instrument for supporting the objectives of SEAANZ, which include the development of scholarship, education and research in small enterprise and enterprise management, including encouraging the application of research findings.

In recognition of the diverse membership base of SEAANZ, **Small Enterprise Research** seeks to elicit a practical outcomes focus in the research papers it publishes and also seeks to publish papers that maintain structural rigour but identify less theoretically constrained approaches to the area.

Interim Editor:

Professor Brian Gibson

University of New England

Brian.gibson@une.edu.au

Interim Assistant Editor:

Dr Kate Lewis

Massey University

K.V.Lewis@massey.ac.nz

As the editorial and publication arrangements are currently being reviewed, please submit all enquiries and submissions to either the interim editor or the interim assistant editor via the above email addresses.
